neither a random event nor the act of a lone madman the assassination of president john f kennedy was an appalling and grisly conspiracy this is the unvarnished story with deft investigative skill david kaiser shows that the events of november 22 1963 cannot be understood without fully grasping the two larger stories of which they were a part the u s government s campaign against organized crime which began in the late 1950s and accelerated dramatically under robert kennedy and the furtive quest of two administrations along with a cadre of private interest groups to eliminate fidel castro the seeds of conspiracy go back to the eisenhower administration which recruited top mobsters in a series of plots to assassinate the cuban leader the cia created a secretive environment in which illicit networks were allowed to expand in dangerous directions the agency s links with the mafia continued in the kennedy administration although the president and his closest advisors engaged in their own efforts to overthrow castro thought this skullduggery had ended meanwhile cuban exiles right wing businessmen and hard line anti communists established ties with virtually anyone deemed capable of taking out the cuban premier inevitably those ties included the mob the conspiracy to kill jfk took shape in response to robert kennedy s relentless attacks on organized crime legal vendettas that often went well beyond the normal practices of law enforcement pushed to the wall mob leaders merely had to look to the networks already in place for a solution they found it in lee harvey oswald the ideal character to enact their desperate revenge against the kennedys comprehensive detailed and informed by original sources the road to dallas adds surprising new material to every aspect of the case it brings to light the complete frequently shocking story of the jfk assassination and its aftermath

essay from the year 2016 in the subject business economics business management corporate governance grade 97 00 university of maryland university college at adelphi business finance course financial decision making for managers language english abstract this report s findings show that companies use the net present value internal rate of return profitability index discounted payback period and payback period when conducting project evaluation however many users tend to prefer payback period internal rate of return and net present value to assess the viability of a proposed project nonetheless net present value was seen to be the most popular tool and as a result theoretically correct net present value is widely used because it is accurate in considering the time value of money net present value also adjust for several risk factors payback period is used because of the ease of calculation and comprehension this research

recommends the use of net present value for project evaluation as literature vouches for it as the best tools

clippings of latin american political social and economic news from various english language newspapers
