 what makes handicapping secrets of the horse racing fanatic your absolute best bet to put
 more money in your pocket when wagering at the track it s not just master handicapper
 gordon easton s four decades worth of powerful and proven betting systems spot plays and
 long shot picking secrets all brought together in one book for the first time anywhere what s
 sets this book apart from all the rest is that retired mathematics professor gordon easton is a
 mathematical genius specializing in numbers probability theory who gives his readers a
 complete set of plug and play betting formulas that will let you cover more horses and results
 for every dollar you bet shaving the odds in your favor for example most people never win a
 pick six because they don t have the hundreds of dollars needed to put a lot of horses on a
 single ticket they will bet many 2 tickets instead they could end up with several tickets with 3
 or 4 winners but none with 5 or 6 for the big win but by using gordon s formulas you are
 guaranteed to line up at least five winners on one ticket if you get a winner in each race you
 ll also have a decent chance at getting a pick six without spending a fortune for example pick
 six formula 1 covers 4 horses in 1 race 3 horses in 3 races and 2 singles your most likely
 winners to put all of these horses on one ticket would cost you 216 using gordon s formula
 you can do this for only 24 with the guarantee of 5 or 6 winners on one ticket if you have a
 winner in each race there is no other place on the planet you can find this kind of incredibly
 valuable knowledge
