just how international and european community law is being integrated into domestic legal systems is as yet not too well known to gain a clear overview of this grey area requires more than knowing about the various constitutional rules what is also needed is a study of little known administrative practices and the attitudes of the national courts where case law is often as complex as it is diverse when all these elements are taken into account the general picture that emerges is a much more subtle one transcending the classical positions based on the theories of monism and dualism to grasp this reality and go beyond preconceived ideas it seemed indispensable to make a thorough analysis of national practices to

this end the international law centre of the university of paris xiii cedex paris xiii took the initiative in 1990 of setting up a network of european international lawyers to work on the theme international norms and legal barriers this book presents the outcome of the network's programme the research was organized on the basis of a single questionnaire which provided the outline of a common workplan to which each of the contributors has adhered detailed comparisons of national practices can now be made relating in particular to international treaties acts of international organisations and of the european communities and to unwritten international law this is the first time that such a comprehensive and detailed survey has been made of all thirteen countries reading the national reports one after the other provides complete information on domestic practices reading them crosswise gives a direct comparison between the different countries on specific issues

this collection of essays gathers contributions from leading international lawyers from different countries generations and angles with the aim of highlighting the multifaceted history of international law this volume questions and analyses the origins and foundations of the international legal system a particular attention is devoted to hugo grotius as one of the founding fathers of the law of nations several contributions further question the positivist tradition initiated by vattel and endorsed by scholars of the 19th century this immersion in the intellectual origins of international law is enriched by an inquiry into the practice of the law of nations including its main patterns and changing evolution as well as the role of non western traditions and the impact of colonization le présent ouvrage réunit les contributions de juristes internationaux reconnus en vue d'éclairer les multiples facettes de l'histoire du droit international public l'ouvrage analyse et questionne les origines et les fondements de l'ordre juridique international une attention toute particulière est dédiée à hugo grotius l'un des pères fondateurs du droit international d'autres contributions questionnent également la tradition positiviste initiée par vattel et confortée par la doctrine du 19^{ème} siècle cette immersion dans les origines doctrinales du système juridique
